# Group Energy & Water Efficiency Policy Statement

## PURPOSE

The purpose of the energy and water efficiency policy is to promote sustainable practices that reduce the consumption of resources and minimise environmental impact. This policy aims at embedding a culture of energy and water efficiency within AD Ports Group offices, buildings, and other facilities.

## SCOPE

The energy and water efficiency policy shall apply to all AD Ports Group offices, buildings, and other facilities, and is binding for all employees.

## POLICY STATEMENT

AD Ports Group understands it has a responsibility to protect the natural environment for current and future generations while maintaining operational goals and an acceptable working/ living environment for staff and visitors. AD Ports Group is committed to managing energy and water consumption and continuously improving energy and water management performance by:

- Implementing an effective energy and water management policy covering all aspects to identify saving opportunities and reap long-term sustainability benefits.
- Adopting best practice standards in energy and water efficiency across our offices, buildings, and other facilities.
- Promoting energy and water management procedures and guidelines amongst employees, visitors, service providers and other applicable stakeholders.
- Prioritising responsible use of energy and water by utilising efficient products and services, minimising overall consumption and meeting sustainability targets.
- Conducting regular performance reviews with related objectives and targets to ensure sustained improvement.
- Complying with applicable government regulations, legislations, and other relevant related requirements.
- Fostering an energy efficiency culture reflecting AD Ports Group future aspirations and goals through awareness campaigns, training programs and engagement activities.
